

The listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

1.-28. (Canceled)

29. (Currently Amended) A light-emitting element comprising:

an anode;

a hole injecting layer over and in contact with the anode, the hole injecting layer comprising a carbazole derivative;

a hole transporting layer over and in contact with the hole injecting layer, the hole transporting layer comprising a hole transporting material;

a light-emitting layer over and in contact with the hole transporting layer, the light-emitting layer comprising a light-emitting host material and a guest material; [[and]]

an electron transporting layer over the light-emitting layer, the electron transporting layer comprising an electron transporting material, and

a cathode over the light-emitting electron transporting layer,

wherein the ~~guest material is a carbazole derivative~~ is represented by a general formula (1),

wherein R<sup>11</sup> and R<sup>13</sup> represent an aryl group having 6 to 25 carbon atoms,

wherein  $R^{12}$  and  $R^{14}$  represent hydrogen, an alkyl group having 1 to 6 carbon atoms, or an aryl group having 6 to 12 carbon atoms, and

wherein  $Ar^{11}$  represents an aryl group having 6 to 12 carbon atoms or a heteroaryl group having 5 to 9 carbon atoms.

30.-32. (Canceled)

33. (Previously Presented) A light-emitting device having the light-emitting element according to claim 29.

34-49. (Canceled)

50. (Previously Presented) A lighting system having the light-emitting device according to claim 33.

51.-62. (Canceled)

63. (New) The light-emitting element according to claim 29, wherein  $R^{11}$  and  $R^{12}$  are a phenyl group.
